and other Small Animals

Small Animals & Ferrets.....1 Teaspoon Every 4 Hrs

1 Tsp = Approx. 75 Drops

1 Tbsp = Approx. 230 Drops

2 Tbsp = 1 Fluid Ounce

**COMPOSITION**

Composition:

Each fluid ounce (2

tablespoons) of Soothables

K'P'A'D, Anti-Diarrheal Liquid

contains:

Kaolin 90 gr (5.8 g)

Pectin 4 gr (0.26 g)

In a palatable base. Flavorings  
and color added.

**INDICATION FOR USE**

Soothables K·P·A·D is a pleasant tasting liquid suspension for use as an aid in the treatment of non-infectious diarrhea.

Kaolin is an anti-diarrheal medicine additive for the adsorption of toxins. This adsorbent action helps relieve the irritation, discomfort and cramping associated with diarrhea.

Pectin is a soluble dietary fiber naturally present in citrus fruits.

Keep out of reach of children and pets
